

INVESTMENT STRATEGIES TO MAXIMIZE SAVINGS

Make the most of the tax credit available on an investment in Golden Opportunities Fund Shares by using popular investment strategies:

1 Earn a 30% tax credit with no new money invested!

Transfer existing RRSP, non-RRSP, or locked-in assets to Golden Opportunities Fund Shares and receive 30%, up to \$2,550, back in tax credits with no new money invested. Some restrictions may apply.

2 Receive two tax credits for the price of one!

Following the eight-year hold period associated with a Retail Venture Capital Fund investment, you can "roll" or re-invest the investment into Golden Opportunities Fund and receive another tax credit without investing any new money.

For example, if a Manitoba shareholder contributed \$5,000 to their RRSP in Golden Opportunities Fund Shares in Year 1, they could have received up to \$3,820* in tax savings that year. Eight years later, by simply re-investing their Shares, they would receive another tax credit.

*Assuming a 30% Manitoba tax credit, a marginal tax bracket of 46.4%, a minimum taxable income of \$126,265, and a \$5,000 RRSP investment.

**SQUEEZE MORE
TAX SAVINGS
FROM YOUR RRSP!**

Example: \$5,000 Investment Rollover

Year 1 \$10/unit x 500 units = \$5,000	8 Years \$5,320 Total Tax Savings \$2,035 Share Growth	Year 8 \$14.07/unit x 500 units = \$7,035 "Roll" \$5,000
Year 1 Tax Savings: \$3,820*		Year 8 Tax Savings: \$1,500
Total assets generated from a \$5,000 investment $\$5,000 + \$3,820 + \$1,500 + \$2,035 = \$12,355$		

Example above assumes a marginal tax bracket of 46.4%, a minimum taxable income of \$126,265, a \$5,000 investment held for 8 consecutive years, and a 5% annualized portfolio return.

YOUR DOLLARS AT RISK DECREASE WHILE YOUR PORTFOLIO CONTINUES TO GROW

Example in graph above assumes a marginal tax bracket of 46.4%, a minimum taxable income of \$126,265, a \$5,000 investment and \$3,820 tax savings per year for 8 consecutive years, rolling over of maturing shares each year thereafter, and a 5% annualized portfolio return. Actual results may vary depending upon a rate of return over the period.

Receive a 30% tax credit every year without investing any new money!

Invest for eight consecutive years and then continue to "roll" your investments each year they mature without investing any new money. For example, if you invest \$5,000 per year into Golden Opportunities Fund Shares for eight consecutive years, then after the eighth year you can start rolling over your maturing Shares to receive tax credits each year thereafter.

3 Invest outside of your RRSP and receive 30% in tax credits!

Investors are eligible to receive the tax credit whether their investment is held inside or outside of an RRSP. Investments outside of an RRSP are eligible for the 30% tax credit; for example, if you have reached your RRSP contribution limit or if you no longer contribute to an RRSP.

Make the most of the tax credit available on your Golden Opportunities Fund Shares investment.

4 Invest \$5,000 and generate \$12,138* in total assets!

Combine tax credits and savings available to individual family members.

5 Repay your RRSP under the Home Buyers Plan for less!

You can repay the money you borrowed from an RRSP for the down payment for your first home with Golden Opportunities Fund Shares, and receive 30% in tax credits back. For example, if you withdraw \$20,000 tax-free from your RRSP for your first home, you can repay this by investing \$5,000 into Golden Opportunities Fund Shares each year for four years. Your total repayment would be \$20,000 less the tax credits you received of \$6,000 for a total net after tax cost of only \$14,000.

6 Reduce your income tax on every paycheque!

Invest regularly into Golden Opportunities Fund Shares through the Fund's Payroll Investment Plan—contributions are easily deducted off every paycheque, plus you receive tax savings and credits on every paycheque, reducing your income tax at source. Invest \$5,000 annually for a net annualized cost of only \$45 per pay period.**

Example	
Spouse #1 invests \$5,000 in GOF...	and receives 30% in tax credits plus RRSP benefits! \$1,500 Tax Credits \$2,320 RRSP Benefit \$3,820*
Spouse #2 invests \$3,820 in GOF...	and receives 30% in tax credits plus RRSP benefits! \$1,146 Tax Credits \$1,772 RRSP Benefit \$2,918*
Use part of this for another investment, such as an RESP...	and receive RESP tax credits available \$400 (20% base from Federal Government contribution)
Total assets generated from a \$5,000 investment \$5,000 + \$3,820 + \$2,918 + \$400 = \$12,138	

*Assuming a marginal tax bracket of 46.4%, a minimum taxable income of \$126,265, and a \$5,000 RRSP investment.

Home Buyers Plan Repayment		
	Without GOF Investment	With GOF Investment
Total Repayment (over four years)	\$20,000	\$20,000
Less: Tax Credits Received	\$0	\$6,000
Net Cost to Repay \$20,000 Withdrawal	\$20,000	\$14,000

Invest \$5,000 annually for a net annualized cost of only \$45 per pay period**

	Without Payroll Investment Plan	With Payroll Investment Plan
Regular pay per Period (before deductions)	\$2,076	\$2,076
Less: CPP and EI	\$132	\$132
Less: Income Tax**	\$467	\$320
Your Investment into Golden Opportunities Fund	\$0	\$192
Net Take-home Pay	\$1,477	\$1,432

Redirect \$147 of Income Tax at source to your Golden Opportunities Fund Investment

Out of pocket cost of only \$45 per pay period

**Based on an annual RRSP investment of \$5,000, 26 pay periods per year, basic personal tax exemptions, and a marginal tax bracket of 46.4% (minimum taxable income of \$126,265).
